AKHIL SAI GURUJU

Senior Technical Analyst · Support Engineering, SQL & AI Automation

gurujuakhilsai@gmail.com | +91 96297 78269 | linkedin.com/in/akhil-sai-guruju-9b7382102 | Hyderabad, India

PROFILE

Senior Technical Analyst with nine years in technology, spanning four years of L3 production support at Bank of America and five years of enterprise SaaS support at Gainsight. I resolve complex technical and application issues using SQL, REST APIs and structured root-cause analysis, and I build Claude-powered agents, connected through MCP, that gather context and surface probable causes faster. Gainsight Administrator (Level 3) certified. I also design and build websites end to end, from visual direction to production front-end.

CORE SKILLS

Gainsight & CS	Gainsight NXT, Gainsight Admin (Level 3), Rules Engine, Journey Orchestrator, C360, Cockpit, Health Scoring, Integrations & Connectors
Support Engineering	Root Cause Analysis, Performance Tuning, Bug Triage, L3 Production Support, Incident Response, Batch & Cron Jobs, Autosys, SLA Management, Escalation Frameworks, SRE Fundamentals, REST APIs, JSON, Postman, Jira, Zendesk
Data & Code	SQL, PL/SQL, Python (Pandas, NumPy, TensorFlow), Alteryx Trifacta, VBA, Shell Scripting, Unix, Java, BIQL, Looker, Excel, Git
AI & Automation	Claude / Anthropic API, Claude Code, MCP (Model Context Protocol), AI Agents, Prompt Engineering, RAG Pipelines, Gemini / Nano Banana, Gainsight Staircase AI, NotebookLM, Julius AI
Design & Front-end	Web Design, UX, Motion Design, HTML5, CSS, JavaScript, React.js, GSAP, Anime.js

PROFESSIONAL EXPERIENCE

Gainsight · Hyderabad, India — **Oct 2021 – Present**

Senior Technical Analyst — May 2026 – Present

Technical Analyst — Oct 2021 – May 2026

- Resolve complex technical and application inquiries from enterprise customers across Rules Engine, Journey Orchestrator, C360, Cockpit, health scores and integrations.
- Write SQL queries and tune performance to diagnose data issues and speed up slow rules and reports.
- Run technical analysis and root-cause investigations through REST APIs and logs, separating configuration problems from product defects.
- Identify product bugs and hand engineering clear, reproducible reports with supporting evidence.
- Built Claude-powered triage agents via MCP, with 7+ tool integrations into Gainsight APIs, REST endpoints and log stores, so probable root causes surface before human review.
- Authored prompt-engineering playbooks adopted team-wide; kept CSAT above target by pairing automation with clear customer communication.

Bank of America · Hyderabad, India — **Sep 2017 – Oct 2021**

Senior Software Engineer — Oct 2020 – Oct 2021

Software Engineer — Sep 2017 – Oct 2020

- Provided L3 production support for applications handling claims and credit-card fraud, owning incidents from triage to fix.
- Scheduled, monitored and troubleshot batch and cron jobs on JVMs, including NDM file transfers orchestrated through Autosys.
- Managed API memory and monitored data traffic to keep high-volume services stable.
- Automated repetitive operational work with Python, VBA and shell scripts, reducing manual effort for the team.

SELECTED PROJECTS

Noctua Consulting — Website Design & Development · noctuaconsulting.co.in Aug 2026 – Oct 2026

- Designed and built the company website from scratch, owning visual direction, information architecture, UX/UI, responsive layouts, animation and front-end build.
- Created a bespoke editorial visual system and a clear journey through proposition, services, methodology and conversion points, using component-based design.
- Used AI-assisted workflows (Claude Opus / Sonnet, Gemini / Nano Banana) for prototyping, debugging, visual concepts and refinement.

Claude Triage Agents — AI Automation at Gainsight Ongoing

- Agents pull live tenant state, error logs and configuration history in a single reasoning pass, automating the query and trace steps of complex ticket investigations.

CERTIFICATIONS & COURSES

Gainsight Administrator — Level 3 · Gainsight 2023
Site Reliability Engineer · In progress 2021 – Present
Data Analysis · Course, Alteryx Trifacta 2018 – 2019
Project Management · Course, Vellore Institute of Technology 2016 – 2017

EDUCATION

B.Tech, Electronics & Communication Engineering 2013 – 2017
Vellore Institute of Technology, Hyderabad · CGPA 7.6

INTERESTS

Gaming, photography, cooking and drones.
